Guanxi in Contemporary Chinese Business Jane Nolan 2020-12-30 Does guanxi still matter in 21st century Chinese business and management? Is it really still a culturally distinct form of social interaction, impenetrable by outsiders? Or does it simply resemble the countless other elite networks embedded in business and political spheres across the globe? This book answers these questions through a combination of new empirical insight and nuanced conceptual development. Research examples include investigations of multinational enterprise corporate performance, governance structures in Chinese private firms, organisational justice in Chinese banks, entrepreneurial learning and knowledge acquisition, and the gendered and sexualized nature of

guanxi in the workplace. In terms of firm performance, there is still much to be gained by MNE and Chinese firms through cultivating guanxi in different domains, including the political sphere at both the local and national level. However, in terms of employee performance, there is evidence that some younger employees have a strong desire to move towards more merit-based systems and resent being judged on guanxi connections. Similarly, some women may find themselves shut out when attempting to navigate conventional guanxi relationships based on Confucian paternalism. In brief, these practices may also exclude a large pool of emerging talent. This book clearly shows that guanxi is a complex concept that holds a persistent power in Chinese

societies. To understand it fully we must acknowledge the dynamic nature of both its dark and light sides. The chapters in this book were originally published in a special issue of the Asia Pacific Business Review.

Sun Ra, Brian Eno, Lee Perry, Kate Bush, Kraftwerk, Aphex Twin, Ryuichi Sakamoto and Brian Wilson are interviewed in this extraordinary work of sonic history. It travels from the rainforests of Amazonas to virtual Las Vegas; from David Lynch's dream house high in the Hollywood Hills to the megalopolis of Tokyo. Ocean of Sound begins in 1889 at the Paris exposition when Debussy first heard Javanese music performed. An ethereal culture developed in response to the intangibility of 20th century communications. Author of Rap

Attack 3 and Exotica, David Toop has in Ocean of Sound written an exhilarating, path-breaking account of ambient sound.

companion, and an invaluable introduction to the art form.
Jazz is Nat Hentoff 1984 This book is a selective tribute and guide to the jazz life, the players, and the music. It is not a chronological or comprehensive history, but rather a personal exploration through variegated seminal figures of a nature of the music (and how it keeps changing). And it is about the nature of those who make the music - temperaments as disparate as those of Louis Armstrong and Charlie Parker. It tells, too, of the political economy of jazz, its internationalization, the continuing surprises of its further frontiers.

Swing to Bop Ira Gitler 1985-11-07

This indispensable book brings us face to face with some of the most

memorable figures in jazz history and charts the rise and development of bop in the late 1930s and '40s. Ira Gitler interviewed more than 50 leading jazz figures, over a 10-year period, to preserve for posterity their recollections of the transition in jazz from the big band era to the modern jazz period. The musicians interviewed, including both the acclaimed and the unrecorded, tell in their own words how this renegade music emerged, why it was a turning point in American jazz, and how it influenced their own lives and work. Placing jazz in historical context, Gitler demonstrates how the mood of the nation in its post-Depression years, racial attitudes of the time, and World War II combined to shape the jazz of today.

Make It New Bill Beuttler 2019-10-01

As jazz enters its second century it is reasserting itself as dynamic and relevant. Boston Globe jazz writer and Emerson College professor Bill Beuttler reveals new ways in which jazz is engaging with society through the vivid biographies and music of Jason Moran, Vijay Iyer, Rudresh Mahanthappa, The Bad Plus, Miguel Zenón, Anat Cohen, Robert Glasper, and Esperanza Spalding. These musicians are freely incorporating other genres of music into jazz—from classical (both western and Indian) to popular (hip-hop, R&B, rock, bluegrass, klezmer, Brazilian choro)—and other art forms as well (literature, film, photography, and other visual arts). This new generation of jazz is increasingly more international and is becoming more open to women as

instrumentalists and bandleaders. Contemporary jazz is reasserting itself as a force for social change, prompted by developments such as the Black Lives Matter, #MeToo movements, and the election of Donald Trump.

society—and a provocative chapter in the cultural history of America. Pynchon's Sound of Music Christian Hänggi 2020-05-15 Pynchon's Sound of Music is dedicated to cataloging, exploring, and interpreting the manifold manifestations of music in Thomas Pynchon's work. An original mix of close and distant readings, this monograph employs a variety of disciplines--from literary studies and musicology to philosophy, media theory, and history--to explain Pynchon through music and music through Pynchon. Encyclopedic and eclectic in its approach, Pynchon's Sound of Music discusses the author's use of instruments such as the kazoo, harmonica, and saxophone and embarks on close readings of the most salient and musically tantalizing passages. Zooming out to a bird's eye view,

Christian Hänggi puts Pynchon's historical musical references and allusions into perspective to trace the trends and tendencies in the development of the author's interest in music. A treasure trove for fans and an invaluable source for future scholarship, this book includes the Pynchon Playlist, a catalog of over 900 musical references in Pynchon's oeuvre, and an exhaustive index of more than 700 appearances of musical instruments.

Music's Meanings Philip Tagg 2013-03-03 “In addressing a pedagogical problem –how to talk about music as if it meant something other than itself – Philip Tagg raises fundamental questions about western epistemology as well as some of its strategically mystifying discourses. With an unsurpassed

authority in the field, the author draws on a lifetime of critical reflection on the experience of music, and how to communicate it without resorting to exclusionary jargon. This is a must-read book for anyone interested in music, for whatever reason: students, teachers, researchers, performers, industry and policy stakeholders, or just to be able to talk intelligently about the musical experience.” (Prof. Bruce Johnson)

German Operetta on Broadway and in the West End, 1900-1940 Derek B. Scott 2022-06-23 Academic attention has focused on America's influence on

European stage works, and yet dozens of operettas from Austria and Germany were produced on Broadway and in the West End, and their impact on the musical life of the early twentieth century is undeniable. In this groundbreaking book, Derek B. Scott examines the cultural transfer of operetta from the German stage to Britain and the USA and offers a historical and critical survey of these operettas and their music. In the period 1900-1940, over sixty operettas were produced in the West End, and over seventy on Broadway. A study of these stage works is important for the light they shine on a variety of social topics of the period - from modernity and gender relations to new technology and new media - and these are investigated in the individual chapters. This book is

also available as Open Access on Cambridge Core.

A Life in Jazz Danny Barker

2016-07-27 As a musician who grew up
in New Orleans, and later worked in
New York with the major swing
orchestras of Lucky Millinder and Cab
Calloway, Barker is uniquely placed
to give an authoritative but personal
view of jazz history. In this book he
discusses his life in music, from the
children's 'spasm' bands of the
seventh ward of New Orleans, through
the experience of brass bands and
jazz funerals involving his

grandfather, Isidore Barbarin, to his
early days on the road with the blues
singer Little Brother Montgomery.
Later he goes on to discuss New York,
and the jazz scene he found there in
1930. His work with Jelly Roll
Morton, as well as the lesser-known
bands of Fess Williams and Albert
Nicholas, is covered before a full
account of his years with Millinder,
Benny Carter and Calloway, including
a description of Dizzy Gillespie's
impact on jazz, is given. The final
chapters discuss Barker's career from
the late 1940s. Starting with the New
York dixieland scene at Ryan's and
Condon's he talks of his work with
Wilbur de Paris, James P. Johnson and
This is Jazz, before discussing his
return to New Orleans and New Orleans
Jazz Museum. A collection of Barker's
